

The 11th Nutrition-Neuroscience meeting

Friday March 23rd 2018

(PGF, Bordeaux Neurocampus)

10:00-10:30: Welcome / coffee

10:30-13:00: Morning session

10:30-11:00 Daniela COTA (Neurocentre Magendie, Bordeaux)

Role of hypothalamic inflammation on body weight regulation

11:00-11:30 Marion RINCEL (NutriNeuro, Bordeaux)

Causal role of intestinal permeability in the modulation of brain function

11:30-12:00 David JARRIAULT (CSGA, Dijon)

Impact of a high fat diet on the olfactory system

12:00-12:30 Xavier FIORAMONTI (NutriNeuro, Bordeaux)

Glucose-sensing in hypothalamic networks and beyond

12:30-14:00: Buffet (Hall of the PGF)

14:00-16:30: Postprandial session

14:00-14:30 Eva ALMIRON (University of Navarra, Pamplona)

Central regulation of appetite and eating behaviour

14:30-15:00 Bastien REDON (Neurocentre Magendie, Bordeaux)

Feeding, running, how motivated are you? A role for the endocannabinoid system

15:00-15:30 Xavier ESCOTE (University of Navarra, Pamplona)

Cell cycle and metabolism: who regulates whom?

15:30-16:00 Lison HUET (NutriNeuro, Bordeaux)

Role of impaired tryptophan metabolism in the pathophysiology of depressive symptoms in obese patients

16:00-16:30 Maite SOLAS (University of Navarra, Pamplona)

Role of glucose transporter 1 (GLUT1) in Alzheimer's disease
